## MILITARY TRAINING AREAS

### KOROSTEN, USSR

### CARPATHIAN MD

#### Training Area A

Training Area A covers approximately 30,000 acres and is located 12 miles (19.2 kilometers) north of Korosten at 51-07N 028-42E (Figure 1).

Facilities include three moving target tank firing ranges, a bivouac area with six permanent barracks/administrative buildings, a large maintenance/storage building and several support buildings; two six-gun field artillery positions, one six-gun antiaircraft artillery site, 11 aircraft silhouettes, probable trenches, and a tracked-vehicle driver training course.

The three moving target tank firing ranges have target distances of approximately 4,100 feet from static firing line to target, and a total of at least 14 firing lanes approximately 2,500 feet long. The bivouac area covers approximately 700 acres and appears inactive on available coverage.

#### Training Area B

Training Area B covers approximately 1,125 acres and is 16 miles (25.6 kilometers) northwest of Korosten and 2 miles (3.2 kilometers) northwest of Luginy at 51-05N 028-

22E. Facilities include a probable wheeled-vehicle driver training course, a barracks area, and three probable small arms ranges, one 400 feet long and two 550 feet long.

#### Training Area C

Training Area C covers approximately 2,000 acres and is located 16 miles (25.6 kilometers) north-northeast of Korosten at 51-12N 028-47E. It contains a tracked-vehicle driver training course.

[REDACTED] 25X1D  
revealed a slight decrease in the size of Training Area A. All areas appeared active during the summer. Training Area A was snow covered and active in [REDACTED] with eight 25X1D  
firing lanes and the driver training course in use. Areas B and C were snow covered and appeared inactive in [REDACTED] 25X1D

No combat courses, impact areas, engineer training or water-crossing training sites, or airborne or air transportability training facilities were observed. The Korosten-Ovruch railroad passes through Area A and immediately west of Area C, but no rail loading ramps were observed. All areas are road served.

**Declassification Review by NIMA / DoD**
